## Collective Bargaining has begun

On 13 November 2019, collective bargaining between the German Education Union GEW and the management of Berlitz Deutschland GmbH has begun in Frankfurt/M.. Both sides are willing to reach a collective agreement.

The start of negotiations took place in a constructive atmosphere.

At the beginning of the negotiations, the GEW presented its demands and expectations. Berlitz Deutschland GmbH took note of these and pointed out that they were not in a position to make a final statement at this point.

With regard to the demand for an increase in remuneration, the employer side noted that the general economic framework did not

allow for major developments. At the same time, they stressed the need to ensure good and fair working conditions for the long term.

Both the GEW and the employer side will use the time until the next round of negotiations for internal consultations.

The negotiations will be continued on 27 November in Frankfurt/M.. The members of the collective bargaining commission have also been invited to this meeting.

**Collective bargaining is only possible with a trade union:  
Join the GEW now!**
